IEEE International Elite School

The IEEE International Elite School is organized by IEEE Taipei Section Broadcasting Technology Society, Computer Society and National Taipei University of Technology, Taiwan. The Elite School will cover different aspects of emerging trends and aims to bring the best and brightest knowledges of research and applications in many fields of hot topic such as Internet of Things, Big Data, Artificial Intelligence, Deep Learning and so on.

Many professional courses and lectures for several days of concentrated learning will be delivered by outstanding experts and professors in international/domestic academia and industry. The Elite School will open 18-hour short courses for those topics, and making them accessible to a wide range of participants such as M.S. students, Ph.D. students, post-doctoral researchers, scientists, and engineers. Participants who successfully complete the course can receive a Verified Course Certificate issued by IEEE Taipei Section Broadcasting Technology Society.

課程名稱： Machine Learning for Big Visual Data (海量影像資料的機器學習，中文授課)
課程日期： 106年3月17日到106年3月19日
課程時段： 3/17(五)09:00-17:00
3/18(六)09:00-17:00
3/19(日)09:00-17:00
全程參與課程會頒發IEEE的修課證書
